

NTRM WORKSHOP SUMMARY REPORT FROM 15TH TO 22ND JUNE 2026 MOROGORO.

Introduction:

The National Technology Roadmap 2050 (NTRM-2050) is being developed to provide a strategic framework for identifying and prioritising the technologies required to support Tanzania's long-term socio-economic transformation under Vision 2050. During the third technical working session, held from **2–15 March 2026**, the Task Force prepared the first draft of the roadmap covering thirteen strategic sectors. Following completion of the initial draft, the Task Force entered the next phase of reviewing, validating and refining the document before its submission to the leadership of the Ministry of Education, Science and Technology (MoEST) for consideration and subsequently to a wider stakeholders' consultation.

To facilitate this exercise, a technical working session was convened to undertake a comprehensive review of all sectoral chapters, validate sector-specific information and statistics, strengthen the proposed technology pathways, and improve the overall quality, consistency and coherence of the document. The activity formed part of the Department's approved work plan and was financed through the Science, Technology and Innovation (STI) component of the Higher Education for Economic Transformation (HEET) Project.

Throughout the workshop, the Task Force worked collaboratively to assess progress across the thirteen strategic sectors, identify outstanding technical issues requiring further refinement, and ensure that each chapter provides an evidence-based and practical roadmap for advancing Tanzania's industrialisation, technological development, economic competitiveness and sustainable development under Vision 2050. This report presents a summary of the activities undertaken, the progress achieved, key observations, and the agreed way forward towards completion of the first draft of the National Technology Roadmap 2050.

Work Progress

Day 1: New members Dr. Augustino E. Mwakipesile and Dr. Josephat Hongoli were introduced to the team by acting chair Prof. Lilian Pasape. New members were replacement of Prof. and Engineer Benedict Lema who were not able to continue with the task because of different reasons. Below is the list of members who attended the 9 days' workshop.

S/N	Full Name	Institution
1	Prof. Lilian Pasape	NM-AIST
2	Prof. Godlisten Kombe	UDOM
3	Dkt. Lawrence Kerefu	DarTU
4	Bw. Yuda Benjamin	WyVB
5	Prof. Kalunde P. Sibuga	SUA
6	Dkt. Augustino E. Mwakipesile	UDOM
7	Dkt. Gerald Kafuku	COSTECH
8	Dkt. Josephat Hongoli	UDSM
9	Bw. Samwel Kaombwe (Sekretarieti)	WyEST
10	Bw. Shija Mbitila (Sekretariet)	WyEST
11	Bi. Mary Nyonyi (Sekretariet)	WyEST

On the same day, members reviewed the work and understand the current status and re-distribute the tasks to new members.

From **Day 2** to **Day 8**, members were reading the document line by line together for the purpose of owning the document.

9th Day of the workshop: The last day was on 22nd June 2026 where we summarized all activities. The work observed to have two main groups, Sector reviewed by individual and reviewed by both individual and the task force as a whole. Those reviewed by both individual and the task force were termed 90% complete, it is the matter of incorporating minor corrections and data validations. Those reviewed by individual but not by the task force a whole were termed as 50% complete.

Reviewed by both individual and the whole task force:

- Water;
- Tourism;
- Blue Economy;
- Transport and Logistics;
- Energy;
- Agriculture;
- Environment; and
- Mining.

Reviewed by individual but not by the whole task force:

- Education;
- Manufacturing;
- Health and Biotechnology;
- Sports and Creative Industries;
- Finance;
- Construction; and
- ICT.

Way forward: The task force agreed that:

- (i) Chapter 8 to be revised within two days (23rd to 24th June 2026), including separating the Construction and Manufacturing sectors into two distinct chapters.
- (ii) Recommended Eight days for group members to improve and refine the chapters that have already been reviewed by both individual and the task force.
- (iii) Working session: To finalize Chapter 8 and prepare the executive summary of the document.
- (iv) Stakeholders' meeting: To undertake a brief review of Chapter 1, either within one day or through several sessions conducted on the same day.
- (v) Deadline: Submission to the Secretary by 27 June 2026, followed by final submission to the Ministry of Education, Science and Technology (MoEST) on 30th June 2026.
